The English text is not legally binding.

General Notes to the Fees:

1. In the case of listed issuers that have titles of “split capital” type, the fee will be calculated per issuer and not per listed title, provided that the total market capitalization of the issuer does not exceed /€8.543.007,21 m.

2. There is no minimum fee on the increase of capital or subsequent issues. There would be no fee calculation at the time of the issue.

3. Payment of subscription on a quarterly basis on the total number of shares including increases of capital.

4. For the first quarter the subscription is calculated pro rata from the date of listing of the titles until the last day of the quarter in which the titles were initially listed. For any other quarter the total amount is payable on the first day of the next quarter.

In the case of delisting of an issuer, for the last quarter, the subscription is calculated pro rata from the first day of the quarter until the day the issuer is delisted.

2. The stock exchange value of listed securities is defined as the average stock market value during each quarter, that is, the sum of the daily stock market value (number of securities X closing price) during the quarter, divided by the number of trading days.

3. For the calculation of the annual subscription regarding the listing of new titles into the CSE, the stock market value of titles (shares, warrants, rights), is defined on the basis of the average market value of the titles during the quarter.

For the calculation of the initial registration fee and of the listing fee for additional securities of an existing issuer, the following apply:

- In relation to the listing of new shares, apply the issue price (i.e. the defined selling price and not the nominal value of the shares).
- In relation to the listing of additional securities of titles which are already listed, apply the average trading price of the first five trading days.
- In relation to the listing of Warrants, apply the average trading price of the first five trading days.
- In relation to the listing of Rights of a new issuer, apply the average trading price of the first five trading days.

Note

Companies to be listed at the Cyprus Stock Exchange and are already listed at any other Stock Exchange will pay only 50% of the annual subscription of issuers.

The present English text represents an unofficial integrated translation of Annex 17 of the Decision of the Council of the CSE regarding Listing of securities on the Cyprus Stock Exchange, continuous obligations of the Stock Exchange Issuers, rights/fees of the Stock Exchange e.t.c. and is provided for information purposes only.
